

TODAY THE SITUATION OF IMMIGRANTS IN BRESCIA IS WORSE THAN IN OTHER ITALIAN CITIES.

Due to the law of Bossi-Fini, those immigrants who lost their jobs because of recession, lose as well their Italian permit of staying. Thousands of immigrants are going back to illegality because Questura di Brescia refuses to renew their work permit.

Only in Brescia, 4000 applications out of 5000 have been reject for the legalization of 2012 (sanatoria 2012), after paying thousands euro. In the district of Brescia, 2000 families had an eviction order (they must leave their houses). Immigrants families are invited by municipal office (Comune) to go back to their country of origin, even if they have lived and worked here for many years.

It's very hard to get a residence card, and immigrants are not treated as Italians; moreover they have to face the problem of fitness of accommodation (idoneità di alloggio). It's a very serious social emergency. It's time to say stop and fight all together for our rights.

Permit of stay of everyone, no family should be throw out of their houses, let's stop Bossi-Fini law, no racism and discrimination against immigrants.
